

TUESDAY JANUARY 3, 1744.

Venice, December 24.

We have lately received Letters from Gilan, a Province of the Persian Empire, which confirm the Accounts formerly received of the surprising Progress made by the Arms of Kouli Kan. These Letters are dated the 18th of October, and not only assure us, that he has reduced Mosul, and beat a considerable

Turkish Army, that had attempted to relieve Bagdad, but that, after blocking up this City, he was become Master of all the flat Country; and would not fail, as soon as the Season permitted, to march, with a great Army, into Natolia; and this News has been since confirmed by Letters from Constantinople directly, where it is said, the People are strongly disposed, to a Revolt; and that it is believed, before the next Spring, there will happen some remarkable Revolution in that Empire.

Rome, December 14. His Holiness having remonstrated to Prince Lobkowitz, That it was simply impossible for the Ecclesiastical State to furnish what he had demanded as necessary for the Support of his Army, his Holiness was so just and equitable, as to enter, fairly, into the Matter; and finding the Fact to be, strictly speaking, true, has been content to accept the Sixth Part of the Sums of Money, and Quantities of Provisions, which he first insisted upon. But, how much soever this may contribute to the Relief of the People, it no way helps to feed them; and they are now reduced to such Necessities, that the Apostolick Chamber is obliged to issue large Sums for their Subsistence; and, to add to all our Misfortunes, and indeed, to render them in a Manner insupportable, the Sums necessary for this charitable Purpose are no longer to be found. It was once proposed to borrow, in this Exigency, a Sum of Money from the Treasury of Pope Sixtus V. but this was disapproved by the Ministry; and they are now hard at Work, endeavouring to find some new Project, which may answer the End better.

Frankfort, January 1. Field-Marshal Seckendorff set out the Day before Yesterday, for his own Estate in Austria; and it is very uncertain when his Excellency will return. It seems, the Austrians are not very apprehensive of the French making any great Progress in the Brisgau; since Baron Trenck, who commands their Frontiers, and several other Officers of Distinction, have had Leave given them to go, for some time, into their own Country. Perhaps, it may be the Sentiments of the Ministry at Vienna, that the Umbrage taken by the States of the Empire, at the Progress of the French on the Side of the Rhine, will prove a sufficient Security to the Brisgau; and it is not at all impossible, that if they should think so, they may come to be mistaken.

Mannheim, December 31. As our most Serene Elector intends to appear in Publick for the first Time, since his having the Small Pox, upon New Year's Day, prodigious Preparations are making for expressing our Joy, and our Loyalty, upon that Occasion, by the Discharge of all our Artillery, and by the noblest Fire-Works and Illuminations that were ever seen. The French are making stupendous Preparations for War in Alsace, where there is lately arrived a great Body of Militia, which are to be incorporated into the Regular Troops. Several Thousand Men are daily employed in the Fortifications of Strasbourg, Landau, Lauterbourg, Weissenbourg, Pfaltzbourg, and other Places. All their Magazines are filling with Hay, Oats, Flower, and other Provisions, which they buy with Ready Money, from the People in the Country about Dourlach, and the Inhabitants of the two Bishopricks of Spire and Worms. These Provisions are transported, directly, to Germersheim, and from thence to the respective Magazines for which they are designed, under the Escort of a strong Independent Company, and several Troops of Hussars. In a Word, the Pains taken by the French to secure themselves on this Side, are so great, and the Progress they have already made, is so surprising, that we foresee the Austrians will find it extremely difficult to gain any Advantages, if they should resolve to prosecute the War next Year in the same Manner they did the last.

In which the Conduct of that Corps, at Dettingen particularly, and during the whole late Campaign, is truly stated and vindicated. Printed for M. Cooper, in Pater-noster Row.

The KING, on a Representation made to him of the many successful Cures performed by

Dr. John Hooper's FEMALE PILLS,

For many Years in his own private Practice as a Man-Midwife and Apothecary, in all Cases more peculiarly incident to the Female Sex; and as, since their Publication to the World, they have been found of more general Use in these Cases, than any Medicine ever yet invented: In order therefore to secure the Property to the said Dr. Hooper, and his Assigns, &c. and to prevent counterfeiting so excellent a Medicine, his Majesty has been most graciously pleased to grant his Royal Letters Patent under the Great Seal of Great Britain.

These PILLS, by long Experience in private Practice, have been found the most useful Remedy against those general Complaints the Female Sex are subject to; they cleanse, purify, and cause a free Circulation of the Blood, when in a Manner stagnated; open those Obstructions which Virgins are so liable to, and bring Nature into its proper Channel, whereby Health is recover'd, and the Patient, that look'd like Death, restor'd to a lively Complexion. They are the best Medicine ever discover'd for young Women, when afflicted with what is vulgarly call'd the Green Sickness, which two or three Boxes will certainly cure; and are also excellent for the Palpitation of the Heart, Giddiness, Loathing of Food, bad Digestion, Pains of the Stomach, a Beating of the Arteries of the Neck, there Breath upon every little Motion, Sinking of the Spirits, a dejected Countenance, and Dislike to Exercise and Conversation; and likewise for the Scoury. For all which Disorders they are a never-failing Cure, and are to be given from seven Years old to seventy. They are likewise equally proper for married Women, unless when with Child, and ought always to be taken one Month after Delivery; for they cleanse the Body, and purge off those gross Humours, which, when retain'd, generate numerous Diseases, and render Women unhealthy all their Lives; and therefore should be taken by all Women at the Age of Forty-five or Fifty, to prevent those Disorders that usually attend them at that Time. These Pills have likewise been found a Sovereign Remedy either for Men or Women, in all Hypochondriac, Hystric, or Vapourish Disorders; for they exceedingly strengthen the Nerves, throw off all gross Humours tending to Melancholy, invigorate the living Spirit, and cause an universal Cheerfulness in the Body. They are Cordial to the Stomach, and agreeable to the Smell and Taste.

By Virtue of the Patent above-mention'd, I have appointed Messieurs William and Chas. Dacey, and Comp. and John Newbery, my ONLY VENDEDORS of these Female Pills; to whom all Persons are desired to apply for them, at their Warehouses, the Bible and Crown without Temple-Bar, and at Dr. Bateson's Warehouse in Bow-Church-Yard, London; or at their Printing Offices in Northampton and Reading; at all which Places, Merchants, Captains of Ships, and Country Dealers, will have good Allowance to sell again; and particular Bills in any Language will be printed for such as take Quantities for Foreign Parts.

Sold also Retail at my House in Reading,

JOHN HOOPER.

N. B. Each Box contains 40 Pills, which is about 10 Doses, and is sealed up in their Directions, with a Seal having these Words, J. N. HOOPER'S FEMALE PILLS, round it, BY THE KING'S PATENT, the same as in the Margin. Price One Shilling the Box.
